

**Course:** Introduction to Artificial Intelligence **Assignment Type:** Theoretical / Essay-based **Due Date:** March 15, 2026 **Total Points:** 100 **Word Limit:** 1500-2000 words

---

## Instructions

Write a comprehensive essay addressing the following question. Your response should demonstrate critical thinking, clear understanding of core concepts, and the ability to synthesize information from multiple sources.

## Essay Question

**“Discuss the ethical implications of artificial intelligence in modern society. Analyze at least three major ethical concerns, provide real-world examples, and propose potential solutions or frameworks for addressing these challenges.”**

## Evaluation Criteria

Your essay will be evaluated based on the following rubric:

### Content and Understanding (40 points)

- Depth of analysis of ethical implications
- Accuracy of AI concepts and terminology
- Quality and relevance of real-world examples
- Critical thinking and original insights

### Structure and Organization (25 points)

- Clear introduction with thesis statement
- Logical flow of arguments
- Well-organized body paragraphs
- Strong conclusion that synthesizes main points

### Research and Evidence (20 points)

- Use of credible sources and citations
- Integration of examples and case studies
- Demonstration of current knowledge in the field

### Writing Quality (15 points)

- Grammar, spelling, and punctuation
- Clarity and coherence of expression
- Academic tone and style

- Proper citation format (APA 7th edition)
- 

### **Submission Guidelines**

- Submit as a PDF document
- Include a title page with your name, student ID, and date
- Use 12-point Times New Roman font, double-spaced
- Include a reference list with at least 5 scholarly sources
- Cite all sources properly to avoid plagiarism

**Late submissions will be penalized 10% per day.**
